EECSS'20

6th World Congress on
Electrical Engineering
and Computer Systems
and Science

August 13 - 15, 2020
Prague, Czech Republic

Paper Submission Deadline: January 24, 2020
Early Bird Registration: March 05, 2020

EECSS'20 is composed of 5 conferences, while each conference consists of an individual and separate theme, they share considerable overlap, which prompted the organization of this congress.

The goal of this undertaking is to bring together experts in each of the specialized fields, and at the same time allow for cross pollinations and sharing of ideas from the other closely related research areas. Interested authors, researchers, and industrial experts are invited to register for the conference that best resonates with their technical background. At the same time, attendees are permitted, and even encouraged, to attend talks from co-located conferences.

Congress Chairs

Dr. Luigi Benedicenti
University of New Brunswick, Canada

SUBMISSIONS

Submissions in the form of extended abstracts, short papers, and full manuscripts are welcome. All submitted papers will be peer reviewed. All accepted and presented papers will be published in the conference proceedings, under an ISBN reference in a USB drive. The online version of the proceedings will also be published under an ISSN reference and each paper in the proceedings will be assigned unique DOIs by CrossRef. The conference proceedings will be indexed by Google Scholar. Also, EECSS proceedings will be permanently archived in Portico (one of the largest community-supported digital archives in the world).

The keynote speakers will be announced shortly.
Thank you for your patience.
